eLearning at St. Ailbe Catholic School

St. Ailbe Catholic School, in an attempt to maintain as much education structure and time learning as possible in this emergent situation, will be providing eLearning to all students.

What is eLearning?

During an eLearning day, teachers provide/assign instruction and feedback to students virtually, or online. While the school is closed, students need to have access to a computer/tablet/cell phone with internet access.

Lessons and Assignments

Teachers will have Lessons available to students on Google Classroom. Teachers will be accessible via e-mail and Google Classroom (or other method) from 9:00AM-2:00 PM. Assignments should be completed and "turned in" electronically. I-Ready, IXL, and other online programs will be used to help deliver standards based curriculum.

Students without Internet Access

Students without Internet Access have the following options:

- Go to a friend or family member's house (if travel restrictions allow).
- Communicate with teachers over the phone or text to arrange alternative assignments
- Students can prepare to come to school early or stay late after returning from school to make up all assignments
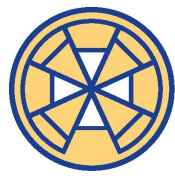

Student Expectations

1. Attend "virtual" school on the eLearning Day.
2. Participate in lessons and complete assignments by the due date.
3. Contact the teacher with questions.
4. Contact Mr. Stack with tech issues.

Before Care/ After Care/ Extracurriculars

During the days where school is in eLearning session, before care and aftercare will be suspended. There will be no students allowed at the building while the building is closed.

Technical Assistance

Students who need technical assistance should e-mail jstack@stailbeschool.org
