

St. Ailbe
CATHOLIC SCHOOL

3/13/20

Good afternoon, families,

[Parent Note 3/13/20](#)

We are still getting details, but this is what I know.

Please plan for at least a week off of school property at this point beginning Monday, March 16. During this time not in the school building, teachers are preparing e-learning plans and packets for students that will be completed daily. We want to ensure that students keep practicing and learning as to not have an early "summer learning slide" in March. All work is going to support work that has been done in class. All work will be posted on the school website, www.stailbeschool.org. Our website also will have important updates and resources that will be posted daily to a tab that will go live tomorrow, title "Emergency Closing Information". Teachers will be available during weekdays for any questions. I am always available via email to answer any questions. Please continue to check in with Instagram and Facebook as well.

This is a step to ensure the safety and security of all students and families. Please remain in contact with us to let us know any developments on your end, as we will do the same on our end.

We appreciate your support during this uncertainty. We pray for the well being of all as we move forward in keeping our students' education a top priority.

God bless,

Mrs. Mostyn
